

COLOURITE Paints

PRODUCT INFORMATION

COLOURITE SUPER GLOSS- manufactured from the highest quality alkylid. It gives a tough durable finish, while providing very good protection and high level of gloss. It is suitable for all weather conditions and is available in all of the BS 4800 shades. Colourite Super Gloss can be used on wood, metal, plaster, wallboards etc.

COLOURITE HI OPAICITY UNDERCOAT- easy to apply with excellent hiding power. Provides the ideal base for Colourite Super Gloss and also fills up minor imperfections in the surface.

COLOURITE SILK VINYL EMULSION- a blended emulsion, which forms a washable sheen surface. It has low odour and is easy to apply. It is suitable for areas of high traffic which requires regular cleaning. Available in selected range of BS 4800 shades.

COLOURITE WEATHER GUARD- uniquely formulated to withstand attack from mould, fungi, ultraviolet rays and humidity. Ideal for all coastal buildings including hotels, schools, office blocks and private housing. Its smooth surface allows self cleaning during the rains. Available in all pastel shades. Other shades available upon request.

COLOURITE PINOTEX X 65- world famous wood protective finish. Its secret formula allows penetration into timber without forming a film. The special UV absorbers in the formulation offers long maintenance free periods, increasing the protection. Available in Pine, Teak, Mahogany, Walnut, Redwood and Ebony.
